

BUY A HOME SELL A HOME HELP A CHILD

ERA Real Estate Services
A Double Eagle Texas Company

ERA Real Estate Services, A Double Eagle Texas Company, has announced an alliance with the Community Storehouse, a crisis relief agency for children in Tarrant, Wise and Denton Counties who live within the Keller and Northwest Independent School Districts.

Beginning November 1, 2009, the Broker of ERA Real Estate Services will contribute \$250 to the Community Storehouse for each purchase or sale of a home brokered by ERA in the Keller or Northwest ISD. ERA Real Estate Services would like to give back to the Community Storehouse for the outstanding work they do to help children and their families during difficult times.

Barbara Board, Executive Director of the Community Storehouse states, "\$250 can help in more ways than you'd think, such as providing the opportunity for a child to attend Camp Community Storehouse for three weeks during the summer in order to improve their reading skills. \$250 can, unbelievably, feed a family for two months or provide 2-3 children (whose family is experiencing a crisis) with Christmas presents they'd otherwise not receive." For more information and to see a comprehensive listing of client services offered, please visit www.communitystorehouse.org. This is a wonderful and life changing alliance that ERA Real Estate Services is offering to children residing in our local communities who need resources and assistance so they can remain in the classroom.

Dave Phillips, Broker/Owner of the Double Eagle Texas Real Estate Companies, including ERA Real Estate Services, remarked that "our decision to go forward with this alliance was an easy one. Having served on the Storehouse Board of Directors, and currently serving on the Advisory Committee, I know how hard the Community Storehouse staff and volunteers work to impact our communities. The Storehouse achieves tremendous results as they facilitate programs assisting children and their families that offer tools and skills to cope when financial disaster impacts their lives. The least we can do is to help in any way we can. Our program also gives home Buyers and Sellers an opportunity to help a child without being asked to take money out of their own pockets."

The parties to the transaction participate simply by working with one of our Exclusive Realty Advisors of ERA Real Estate Services. That initiative makes it possible for ERA Real Estate Services to write the \$250 check to the Community Storehouse each time a transaction closes within the Storehouse service area.

Together, we can help the children in our community!
